

Grooved straight tee (Equal tee)

Grooved straight tee (Equal tee) is an equal-diameter three-way pipe fitting with a grooved connection structure. The pipe diameters of the three interfaces are the same, and it is used in pipeline systems to achieve vertical branch connections of pipelines

- Standard:** ANSI / UL 213C UL / FM
- Material:** Ductile iron ASTM A536, 65-45-12
- Type:** Short / Standard
- Rated pressure:** 300 - 500 psi
- Surface:** Red painting / hot dip galvanized
- Size range:** 1" - 24"

Available size
